

# Electronics and software for industrial inkjet printheads

## Robust, cost-effective solutions

Meteor develops, delivers and supports the electronics and software required to drive industrial inkjet printheads. With a long and solid track record, Meteor helps customers realise the potential these ever-evolving technologies in a growing array of applications

- modular components for scalable implementation
- off-the-shelf, production-ready solutions
- powerful data path and application software

their respective companies.

Meteor understands the commercial realities of industrial inkjet systems and supports customers from development, through prototyping, into mass production with regionally based sales and support in Europe, mainland China, Asia Pacific and the Americas.

## Electronics

Meteor electronics are powerful, flexible and scalable. The same architecture is used from prototype through to production.

## Software

Customers can license an application-specific Meteor Digital Front End or develop their own using a Meteor Software Development Kit.

	Scanning Printers	Single Pass Printers	Laboratory
Meteor Digital Front End	MetScan	MetPrint	MetDrop
Software Development Kit	Scan-Engine SDK	Print-Engine SDK	

## ALSO FROM METEOR

drop optimisation systems • ancillary components • evaluation kits

Meteor Inkjet Ltd is a leading independent supplier of industrial inkjet printhead solutions. Working closely with all major industrial inkjet printhead manufacturers, Meteor supplies production-ready electronics and software to printer OEMs and print system builders world-wide.
